

Press Release

Environmental Award for Altimage

For immediate release

Following an assessment by an independent body, Altimage has been awarded BS EN ISO14001:2004 certification. This certification has only been achieved by less than 1% of UK businesses and this prestigious award is supported by the Government and recognised world-wide.

“By establishing a commitment to reduce, reuse and recycle waste and to efficiently use energy, we are taking an important step toward preserving the environment, and helping our customers achieve their own environmental goals” says Rob King, Joint Managing Director. “We have set high targets for further improvement and are passionate to make a difference”.

Graeme Elmer, who undertook the assessment, paid particular tribute to “the investment in people and training that enables Altimage to provide an efficient and environmentally friendly service to their customers.”
